

COMPANY POLICY ENVIRONMENTAL

Committed to protecting the local and global environment

City and Kent Cleaning Ltd recognise the need to operate their business in a manner that reflects good environmental management. We are aware of the potential environmental impact of our operations and wish to minimise any harmful effects of our actions, whenever and wherever possible, to protect both the local and global environment. The Company is committed to providing the necessary financial and personnel resource to fulfil this policy.

The Managing Director is personally responsible for the environmental performance of the Company.

We are conscious of our environmental responsibility and are committed to preventing pollution to minimise environmental impact and to develop a culture of continual environmental improvement by establishing a clear set of environmental objectives and targets within the framework of an environmental management system.

The Company complies with all relevant environmental legislation and where practicable will strive to achieve standards of environmental performance that are better than the legal minimum.

City and Kent Cleaning Ltd are committed to achieving environmental best practice throughout our business by:

- Ensuring the Company's activities are safe for our employees, associates, customers and others who come into contact with our activities
- Accepting reasonable responsibility for any harm to the environment caused by activities and taking practicable steps to remedy any damage
- Monitoring purchasing practices and internal operations wherever possible. To use sustainable materials and products that are reusable or can be recycled. When necessary, we ensure that all wastes, particularly hazardous wastes (such as contaminated items) are tested, transported and disposed of in an environmentally acceptable manner, in accordance with statutory duty of care requirements
- Monitoring and working with our suppliers and other third parties associated with our business and setting them similar high standards
- Exploiting environmental opportunities by active resource management (materials, fuel and energy) and waste minimisation
- Seeking to integrate environmental considerations into future business policy decisions
- Communicating the Environmental Policy to all company personnel. The Policy will also be freely available to customers, suppliers and the general public
- Developing systems to implement and review this policy
